

*Save one life and we save the world*

Our Beginnings.....

After working to break up a child pornography ring many years ago, much knowledge was gained and the need for a different type of healing process for victims of human and sex trafficking was recognized. Thus, like the Phoenix bird emerging from the dark ashes to a new life, The Phoenix Charity was born.

Victims of human and sex trafficking are branded, burned, tattooed and scarred in many ways. The Phoenix Charity provides these victims hope of a new life without the constant reminder of the torturous life they were rescued from.

The Phoenix Charity is able to remove the constant visible reminders these victims bare giving them a clean slate and hope for a brighter future. All work is provided at no cost to the victims.

The Phoenix Charity has both led and assisted with many rescues over the years. Involvement begins the moment a lead or call comes in on a potential or verified victim in need of rescue. The Phoenix Charity is involved at every aspect from gathering intel to the actual rescue and recovery operation itself. We work with law enforcement agencies at the local, state and federal level to balance out strengths on both sides.

Some of the accomplishments and work taken on by The Phoenix Charity have included:

- International rescues of American children
- Removal of tattoos, burns and scars
  - (approximately \$10k - \$20k of work per month)
- Working with multiple safe houses
- Location of any endangered youth at the request of Parents
  - (No One Is Turned Down)
- Work hand in hand with local law enforcement
- Congressional award for Services Provided in the Rescue of Trafficking Victims

The Phoenix Charity prides itself in being able to provide physical rehabilitation for the victims of human and sex trafficking. We know it is essential to their future success and to being able to mentally grasp hold of a new life.
