Offering Hope—Rescue and Recovery

The first part of our 3-part mission is **Rescue**. The Phoenix Charity receives leads on trafficking situations and individuals daily. Each of these leads is researched and followed through on by our team. We are involved in every aspect of a rescue operation. This includes conducting surveillance as well as planning and managing the actual recovery operation.

Get Well—Rehabilitation Services

The Phoenix Charity answers thousands of Human Trafficking related requests with compassion for the victims, their families and caregivers. We offer help and emotional support.

Victims of trafficking are left with physical, mental and emotional scars. We begin by removing the tattoos and scars left by brands (the same as you would see done to cattle) or through cuts and other forms of torture. This allows for the visible reminders these victims see every day to no longer be a defining mark on their body.

Stay Well—Awareness

The third part of our mission is **AWARENESS**. We at The Phoenix Charity work tirelessly to educate the public of the evil surrounding us every day and how to protect yourself and your children as well as how to react in emergency situations should you be faced with them.

Fighting Back—Advocacy

The Phoenix Charity is working at a local, State and Federal level to advocate law changes. The very laws designed to protect us are now in turn protecting the criminals to the point the traffickers are no longer hiding, but operating in plain site. It is our fight to implement changes that will in fact hold the criminals accountable for their actions.
